Mushroom Cultivation Workshop

This is a hands-on workshop where participants will discover easy, low-cost methods for growing delicious gourmet mushrooms such as shiitake, wine cap, and oyster. Learn how to inoculate logs and wood chip beds so that you can harvest and sell your own mushrooms year after year. Each participant will receive a Gray Dove Oyster Mushroom Production Kit, inoculated log with their choice of Lion's Mane or Golden Oyster, and a bag of Wine cap Spawn. Since this is a hands-on workshop, participants are asked to bring a hand drill (if possible) with them. Some extra drills will be available, as well as drill bits will be provided.

This workshop will be held on Saturday, April 20th from 10:00 am to 12:00 pm. It will be held at the 4-H Conference Center on the Clay County Fairgrounds, 205 S 12th Street, Clay Center, KS 67432. This workshop is \$30 to attend and space is limited, so sign up fast! Participants are asked to RSVP by April 18th to the Washington Extension Office at 785-325-2121 or by emailing Kelsey Hatesohl at khatesohl@ksu.edu.
